

# BESCENTA

This artiste is the epitome of what the roots of reggae music is all about. Armed with a barrage of strong and prolific songs this youth is as refreshing as the rivers running through the cool St Andrew hills where he hails from.

Born Bryden Bescenta Wilkins, Bescenta is a product of the above rocks district in the St Andrew Hills, birthplace of another reggae great Nadine Sutherland.

This youth has the ability to create very socially conscious songs that immediately relate to the mainstream. He is a voice for the oppressed with soul soothing melodies that are as haunting as they are unforgettable. Bescenta is a one in a million artiste and a youth that will rightfully take his place in the dancehall with other great acts who preceeded him.
